

Method and Apparatus for Automatic Conversion of Electronic Mail to an Internet Web Site

5

ABSTRACT

a hosted Web portal where all Internet users, regardless of skill, can easily
10 post and modify material on the Web using their existing email clients.
Various tools are available for very simple authentication and site
management that will ensure some degree of security and administration. For
example, changing content and replacing content are provided. Hyperlinks,
HTML, and embedded JPEG images in the body of the email or as
15 attachments are supported.
